

2020 Annual Report

Message From The President

Hi Friends!

What a year it's been! Not only has the world changed in a thousand ways, so has NOMV. Facing a veterinary profession inundated with the effects of the pandemic, dealing with staff shortages, clients unhappy with safety protocols, and overworked employees, NOMV has had to grow quickly to meet the needs of those we serve.

We're adding new programs in 2021 and expanding our core services as well. The Support Grants program will triple in size in the coming year, and we will launch LifeBoat, a revolutionary new online crisis management program. We are also hard at work creating wellness standards for the industry, participating in crucial research projects, and continuing to administer the ever-expanding peer support forums that started it all.

You will see new faces in NOMV leadership this year. We are eternally grateful to those who served long and hard to build NOMV. Now it is time for them to rest and let new hands take the wheel. We are also

Carrie Journey, DVM, ACVIM (Neuro)

President, Not One More Vet, Inc.

NOMV Programs

brought into stark focus the alarming rates of suicide in the veterinary profession. In that moment, many came to realize that veterinary medicine can be very isolating and that so many veterinary professionals around the world are struggling with the day-to-day realities of practice.

From that grassroots beginning, NOMV has grown into a massive peer-to-peer network providing support for veterinary professionals around the world. With a membership of over 28,000, we serve veterinary professionals of every kind including: Support Staff, Veterinary Technicians, Students, and DVMs. Our network has grown so large that over one quarter of all Veterinarians in the U.S. have joined.

▲ Educational Programming

NOMV's educational program provides leadership focused on wellness. Our trainers speak at conferences, events, and webinars, bringing a message of hope to their peers.

As a leader in the field of Veterinary mental health, NOMV is a resource available to anyone. We share our knowledge and understanding through educational curriculum. Our renowned speakers have given presentations at a large variety of events and conferences on four continents. We are RACE certified and able to present continuing education to further the understanding of mental health resources for veterinary professionals. We have been asked to share our knowledge at major industry conferences and by leading institutions and businesses.

▲ Support Grants

NOMV's support grant program provides immediate financial support to help veterinarians, support staff, or students in financial crisis, thus reducing their emotional stress.

In 2017, NOMV expanded to become a 501(c)3 nonprofit to fill the need for support grants. Veterinary professionals in crisis often need a number of resources to help reduce their stressors. NOMV support grant volunteers talk one-on-one with grant applicants to determine the resources that can best help them through a crisis. These resources range from direct monetary support for bills, student loans, or mortgages, to resources such as professional mental health or relief staffing.

In 2020, NOMV awarded 64 grants which included both monetary and non-monetary resources and amounted to \$44,000 in funding.

NOMV members can go to <https://www.betterhelp.com/nomv/> to get started with a therapist.

▲ LifeBoat

NOMV is currently working with the University of Tennessee and Auburn University to develop a revolutionary online crisis support system specifically designed for veterinary professionals.

Throughout our six years of operation, NOMV has pioneered online peer-to-peer support and mentorship in the veterinary community. LifeBoat is the next iteration of that support. With LifeBoat we seek to pair anonymous veterinary users with a team, or carepod, of trained veterinary professionals who will support and mentor these individuals through their crisis. These carepods will have the support of mental health professionals through the Veterinary Social Work program at University of Tennessee.

Lifeboat will launch in the first half of 2021.

▲ Research

NOMV is participating in research to further the advancement of wellness, mental health, and the reduction of suicide in veterinary professionals, helping to bring a better future to all in the profession.

Knowing the startling statistics about Veterinary mental health and suicide is useful, but understanding the underlying issues is of far greater import. At NOMV we recognize the need for comprehensive research to further advance our mission. We are conducting our own research projects with respected institutions as well as assisting others in their research. Some of the institutions we worked with in 2020 include: University of Tennessee, Auburn University, Johns Hopkins University, Oregon State University, and Colorado State University.

Testimonials

I was a 2020 graduate in the middle of the COVID pandemic. I still had not been able to secure a job yet and the sale of my house had fallen through. I had just moved states and on the move down a large piece of metal from the road was kicked up into my vehicle's undercarriage totalling the head gasket, radiator, compressor, etc. The vehicle was totaled, I was living in a small camper as I was going to use the money from the sale of the house as rent money. I reached out to NOMV because I was desperate and did not know where to turn. They were so helpful and kind. They helped me by paying a large balance on a bill I had due that was going to begin accruing interest. This kind act allowed me to have enough money to buy an inexpensive car so I would have means of transportation. I did end up getting a job and things are looking up. I hope one day to be able to pay back NOMV for all the help they have given me.

Anonymous NOMV Support Grant Awardee

“

I have felt a great relief having support from NOMV. The funds I received were able to get me caught up on my mortgage and that was huge. I'm still struggling with the rest life has to offer, but knowing my most important financial obligation is back on track is a wonderful feeling. I am so blessed to have been guided to the NOMV grant and the simplicity and easy communication. Thank you for providing this service and for helping the veterinary community.

Kelly, NOMV Support Grant Awardee

Fundraising

2020 NOMV Race Around the World

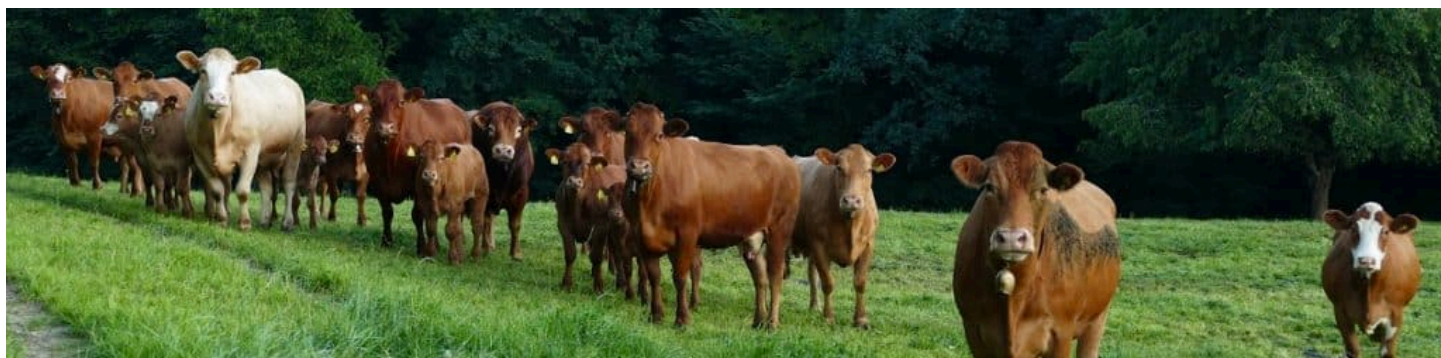

. 10 Countries

The Race Around the World has its roots in an event organized in 2019 by Caitlin Furlong, now the Secretary of the Board of Directors for NOMV. As the Marketing and Events Coordinator for B.W. Furlong & Associates, an equine veterinary clinic headquartered in Oldwick, NJ, she proposed creating a 5K run/walk in their community to raise awareness for veterinary mental health and donate the proceeds to NOMV. Their inaugural event ended up having fantastic support from the local community with over 90 participants joining the race.

The 2020 plan was to make this race a national event. COVID-19 put a wrench in the original plans but brought about the idea of a virtual event. Using the inventive platform of Charity Footprints and the incredible support of Premier Sponsor Zoetis Equine, Caitlin made the event happen.

Caitlin's idea became the NOMV's Race Around The World, a signature fundraising event designed to reach people on a global scale and create a larger awareness for all that NOMV does in the veterinary industry.

In 2020, NOMV launched our Investment Program. This program helps us to reach out to our generous donors, staying in contact with them and recognizing their support.

By Investing in NOMV, our donors are investing in the programs that work toward fulfilling our mission to transform the status of mental wellness within the profession so veterinary professionals can survive and thrive through education, resources, and support.

Message From The Executive Director

Hello Friends!

Many children dream of growing up to work in the veterinary profession. But those that take the leap and achieve it often find that as they delve into the career they begin to see the differences between the dream and the reality. Navigating the emotional landscape of a job that is both a great love and a great stress often requires help. And that's what NOMV is here to provide.

Thank you,

A handwritten signature in black ink that reads "Darlene Bos". The signature is written in a cursive, flowing style.

Darlene Bos

Executive Director, NOMV

Our Donors

As a 501(c)3 nonprofit, NOMV is able to operate its programs and offer its services only through the generosity of our donors and supporters. We are grateful to have so many individuals, families,
